

State Head & Sales People — Glossary & Calculations

Prayag India Sales Intelligence — glossary, calculations & logic · generated 2026-08-01

GLOSSARY

- **Primary Sales (Dispatched):** Revenue from goods invoiced by Prayag to Distributors. Tracked daily via SAP register chain (API sale_line).
- **Primary Order Booking:** Committed orders from Distributors to Prayag. Sourced from the "Order Sheet" (FY26-27).
- **Secondary Sales (Received):** The salesperson-attributed portion of primary sales. Salespeople take orders from retailers and give them to distributors. Tracked monthly via the authoritative STATE HEAD DASHBOARD Google Sheet.
- **Secondary Order Booked (OB):** Orders taken by salespeople from retailers. Recorded in the State Head Dashboard.
- **Plan / Target Secondary:** Monthly/Annual sales targets for salespeople. Primary source is the "Plan" column in the State Head Dashboard; fallback is the "Target Master" sheet.
- **Achievement %:** Defined as Sales Received / Plan. Note: The raw Google Sheet often calculates this as OB / Plan, which the app explicitly ignores/recomputes.
- **Coverage:** The ratio of Secondary Sales to Primary Sales (Secondary / Primary). Indicates the share of business directly driven by the sales team.
- **Coverage Gap:** The absolute difference (Primary Sales - Secondary Sales). Represents business arriving without direct salesperson touch (e.g., direct distributor reorders).
- **Like-Months:** An "apples-to-apples" comparison filter that restricts Primary Sales to the same set of calendar months for which Secondary Sales (recorded only at month-end) are available.
- **Sales-Lag (Not Yet Recorded):** A status for calendar-closed months where Secondary OB is entered but Sales Received is zero. This signals a data-entry delay rather than zero performance.
- **Anomaly:** A per-member, per-month flag triggered when Sales Received > (Ordered Amount x 1.5). Such values are displayed but excluded from rankings.

CALCULATIONS & LOGIC

1. Achievement Formulas

- **Monthly Achievement:** $\text{Secondary Sales Received (Month)} / \text{Secondary Plan (Month)}$.
- **YTD Achievement:** $\text{Sum(Secondary Sales Received)} / \text{Sum(Secondary Plan)}$ for closed months only.
- **In-Progress Handling:** Current open months or "Sales-Lag" months (closed with OB > 0 but Sales = 0) are excluded from the achievement denominator to avoid understating performance.

2. Primary vs. Secondary Relationship

- **Logic:** Secondary is a subset of Primary. They are part of the same transaction flow, not separate revenue streams.
- **Prohibition:** Never sum Primary and Secondary figures (double-counting).
- **Coverage Calculation:** $\text{Secondary Sales (Closed Months)} / \text{Primary Sales (Same Closed Months)}$.

3. Target Splitting & Seasonality

- **Annual to Period:** Annual targets from Target Master or DB are split using seasonal weights derived from FY2025-26 actuals.
- **Formulas:**
 - $\text{Period Target} = \text{Sum(Monthly Overrides)}$ if provided.
 - $\text{Period Target} = \text{Annual Target} \times \text{Sum(Seasonal Month Weights)}$ if no overrides.

4. Data Sources & Filters

- **Secondary Data:** Google Sheet 1E1jEY_yO8LmpqBDpcesS_fu2SBPEQ0eKO5xN29XyTEM (FY26-27),

tab SECONDARY ORDER BOOKING REPORT.

- Primary Data: sale_line table (Backend DB) and Order Sheet (FY26-27).
- Identity Resolution: normSecKey (lowercase alphanumeric, keeps parentheses) for unique database keys; normName (strips parentheses) for roster/HR joins.
- Low Performer Logic: Achievement < 50% (default) or < 25% (selectable). Excludes "Primary-role" members and "Left" members.

5. Color Bands & Thresholds

- >100%: Emerald (above100)
- 90-100%: Green (90to100)
- 70-90%: Yellow (70to90)
- 50-70%: Amber (50to70)
- 25-50%: Orange (below50)
- <25%: Red (below25)
- No Target: Muted (noTarget) - applied when plan is null or 0.
